

December 21, 2017

Dear Parents and Guardians of LDPS students;

As you know, we have been moving throughout the week to ensure that we are ready to welcome students back to school at the new school site on January 8, 2018. In preparation for the start-up we wanted to send you information about how the drop-off and pick-up routines will work.

In the attached map you will see how the bus lanes enter into the driveway in a large loop for drop off and pick up. The buses will progress through the large looped driveway and will stop at the end of the driveway to let students disembark. There is enough space in the bus driveway area for the buses to fit allowing cars to enter the driveway and turn right into the rear parking lot. This parking lot area is ideally where parents who drop off/pick up their child(s) on a daily basis to use as this section of the driveway is two way you will be able to pull out and immediately exit to the left, back on to the street.

If you are dropping your child off at school late or picking up early (prior to end of day dismissal) than you can use the parking lot at the main doors.

We are asking that people who are dropping off their children please just drop off as needed and not walk through the school when we first start up. We will have an open house early in January so everyone can come and tour the new school, but our priority will be to help the students settle into their new learning space as quickly as possible.

I trust that you and your family will have a safe and happy Holiday and we look forward to a fabulous new year.

Sincerely,

Penny Hope, Principal

Lakefield District Public School
